RE: Ready, Set, Build Program

On behalf of the City of Chippewa Falls please accept this letter of support for the County's application for Lake Wissota Business Park to be designated as a Ready, Set, Build Program business park. The City of Chippewa Falls and Chippewa County have partnered to plan and construct Lake Wissota Business Park for many years including cost sharing for infrastructure expenses. The City and County actively partner and promote economic development including marketing Lake Wissota Business Park. With the business park designation as a Ready, Set, Build Business Park this will add another tool we can use to promote business park development. Thank you for your consideration.

Sincerely,

Gregory S. Hoffman
Mayor, Chippewa Falls, WI
