Hi Eva,

Thanks for reaching out to us. I checked with our Wetland and Waterway Section Chief to get a good answer for your question.

DNR will accept the concurred with wetland boundaries that the U.S. Army Corps of Engineers mentions in their AJD determination.

Thanks again,

Tom

We are committed to service excellence.  
Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Tom, based on this email from the USACE, will the WDNR concur with the wetland boundaries?

Hi Eva

The wetland boundaries were determined to be sufficiently identified, where I could complete the requested approve jurisdictional determination for the purposes of Section 404 of the Clean Water Act. My determination does not preclude another agencies right to disagree or challenge the accuracy of the wetland boundaries.

Ryan, I had a quick follow-up question regarding this JD. Under Section IV of the Approved JD form, you checked the box stating office concurs with data sheets/delineation report. Does that also mean that you concurred with the wetland boundaries?

Thanks for the clarification.
