manufacturing
- > Paper manufacturing
- > Printing

*Lightcast 2022 Q4 Dataset*

Manufacturers' 2021  
output accounted for more than

of Wisconsin's gross  
domestic product.

*Lightcast 2022 Q4 Dataset*

## INDUSTRY STRONG. TECHNOLOGY SMART. FUTURE READY.

“ When deciding where to invest for the future of our business in Milwaukee, we felt lucky to find a location that was blocks from where we were founded and allowed us to be part of an exciting transformation in the city. Not only do we have a long history in Milwaukee, but our network of key heavy manufacturing suppliers is also located here in southeast Wisconsin, as well as the premier universities and technical colleges that help create our workforce. Our goal for this project is to have a positive impact on the community and its sustainability for the future. ”

**JOHN KOETZ**

Executive Vice President of Surface Mining  
Komatsu
