

WISCONSIN PRIORITIZES CLEAN ENERGY PROJECTS

1ST EARTH DAY

Wisconsin created Earth Day and we remain committed to clean energy

State Office of Sustainability & Clean Energy is addressing the effects of climate change through programs and policies that support the use of clean energy resources and technology.

Focus on Energy Program provides information, resources and financial incentives to help company's implement energy efficiency and renewable projects.

Property Assessed Clean Energy (PACE) enables property owners to obtain low-cost, long-term loans for energy efficiency, renewable energy, and water conservation improvements.

Energy Innovation Grant Program (EIGP) covers a wide variety of energy related projects that reduce energy consumption and support renewable energy vehicles and infrastructure.

Wisconsin DNR's Green Tier Program empowers organizations who are on the path to sustainability by helping them use a systematic approach to minimize environmental risk.

Research Tax Credits for activities related to certain energy efficient products.
